L2 Large Diameter Electrofusion Training REGISTRATION

Please use this form to register for the upcoming Integrity Fusion Academy Certified Large Diameter (14" & larger) EF Training Course. This L2 training will be offered at our in-house training facility in Peachtree City, GA.

The L2 training course is a two-day event, and will be held on **Tuesday and Wednesday, January 28-29, 2025**. This class has limited space available and will be filled on a first come, first served basis.

The class may consist of trainees representing several different competing companies in order to meet class size requirements. Any photos or videos taken of registered trainees by Integrity Fusion during the course, will remain the property of Integrity Fusion Products, and may be used for future promotional needs.

Once this form is submitted, you will be contacted by the Integrity Fusion Academy Training Coordinator to confirm your qualification and registration status and finalize the course payment requirements.

L2 COURSE REQUIREMENTS

Integrity Fusion Products L2 electrofusion qualification is geared to the more experienced EF technician needing certification, or recertification, in electrofusion installation procedures for applications 14" and larger.

This course is open to individuals with the following qualifications:

- First time installers that hold a current L1 certification from Integrity Fusion products or another recognized electrofusion manufacturer that have extensive experience in small diameter installation,
- Hold a current Level 2 installation certification from another recognized electrofusion manufacturer, **or**
- Have a verifiable work history of successfully installing large diameter electrofusion fittings with or for a recognized electrofusion distributor or contractor, **or**
- Hold a current L2 certificate but are needing recertification.

Please fill out and return completed form to: training@integrityfusion.com
